

**PERSONAL WIRELESS DEVICES AND ELECTRONIC ACCOUNTS**

The technology center requires that all individuals devote their full attention to education while at school or during education activities. Accordingly, the technology center expects both employees and students to limit their use of personal wireless devices (including, but not limited to, hand-held mobile telephones) and personal electronic accounts at school or when engaged in school-related activities. Wireless devices include, but are not limited to, cell phones, laptops, cameras, GPS systems, any type of device capable of intercepting or recording a conversation, any type of device capable of providing visual surveillance or images, recorders, Google Glass, etc. Electronic accounts include, but are not limited to, accounts that allow digital communication such as email and social media accounts.

Google Glass and similar technology is prohibited on campus by all individuals at all times. Regardless of the type of technology used, no individual may make any type of surreptitious recording of others on technology center property. Additionally, no person may use any type of technology to remotely monitor, listen to, or view actions occurring at school or school activities. Personal wireless devices not otherwise prohibited shall be turned off and out-of-sight in locations such as restrooms, locker rooms, changing rooms, etc. (“private areas”). The use of any audio/visual recording and camera features is strictly prohibited in private areas. Students who observe a violation of this provision shall immediately report this conduct to a teacher or the campus director. Employees who observe a violation of this provision shall immediately report this conduct to a supervisor, the campus director, or other administrator.

**Students**

It is the district's policy that students who possess a personal wireless device at school must keep that device turned off and out of sight during class time. No student will be permitted to access his/her personal wireless device during class time except with teacher permission. Students may use their personal wireless devices during breaks and lunch.

Students who violate this policy will have their personal wireless device confiscated until after a parent conference, and may lose the privileges of possessing such a device at school or school-related activities for the remainder of the school year. Students are also subject to other disciplinary action.

Students may not use any personal wireless device to:

- send or receive answers to test questions or otherwise engage in cheating;
- record conversations or events during the school day, on school property or at school activities;
- threaten, harass, intimidate, or bully;
- take, possess, or distribute obscene or pornographic images or photos;
- engage in lewd communications;
- violate school policies, handbook provisions, or regulations.

## Employees

Employees will make reasonable efforts to use district resources rather than personal wireless devices or personal electronic accounts for electronic or digital communications with other employees, parents, and students and for tasks related to their employment. By using personal wireless devices or personal electronic accounts to communicate with other employees, parents, and students or to perform tasks related to their employment, employees acknowledge that they are creating records that may be subject to Oklahoma's laws related to Open Records (51 OKLA. STAT. § 24A.1 *et seq.*). Employees consent to retain and provide access to such communications or records to technology center administration upon request. This consent survives any changes in the employment relationship.

Authorized transportation employees are permitted to utilize cell phones for business reasons to make or receive voice calls while operating a school bus or van, provided:

- the employee is using "hands-free" technology to make the calls; or
- the employee has safely pulled the vehicle to the side of the road or is otherwise stopped and not impeding the flow of traffic;

Transportation employees are not permitted to text or otherwise use a personal wireless device while operating a technology center vehicle except as necessary to communicate with law enforcement officials, emergency services, or to and from the technology center's campus.

Personal wireless devices may not be used to photograph or record conversations or events outside private areas without first obtaining consent to record from all parties. In the case of students, permission from the building principal must be obtained. Administrative approval for recordings of students will take into consideration whether prior approval has been granted from parents/guardians and whether the recording would identify a specific category of students such as special education students.

Personal wireless devices may only be shared with students for emergency use.

No employee may use a personal wireless device to engage in conduct which is illegal or which could be construed as inappropriate conduct with a student or students. In the event an employee receives an inappropriate electronic or digital communication from a student or parent, the communication must be promptly reported to the employee's supervisor.

The technology center fully acknowledges that personal wireless communications devices are the personal property of the employee. Unless an administrator has reasonable suspicion that an employee's personal equipment contains prohibited content, an administrator may not inspect an employee's personal equipment without the employee's express consent.

**Warning:** Possessing, taking, disseminating, transferring, or sharing obscene, pornographic, lewd, or otherwise illegal images, photographs, or communications, whether by electronic data transfer or otherwise (commonly called texting, sexting, emailing, and other modes of electronic or digital communication) may constitute a CRIME under state and/or federal law. Any person possessing, taking, disseminating, transferring, or sharing obscene, pornographic, lewd or otherwise illegal images, photographs, or communications will be reported to law enforcement and/or other appropriate state or federal agencies, which may result in arrest, criminal prosecution, and inclusion on sexual offender registries.
