

**PRIVACY AT SCHOOL**

The board expects all actions and activities associated with the technology center to be conducted within the confines of the law and with the best interests of students and staff in mind.

To (a) ensure compliance with state and federal privacy laws,(b) reduce the risk of stifling the free exchange of ideas, (c) shield young people from potential embarrassment, and (d) otherwise limit the disruption of the educational environment for students and staff, the technology center does not permit the audio or visual recording of communications or activities occurring in classrooms, offices, or common areas during the school day without prior consent of a technology center administrator and upon such terms and conditions deemed appropriate by the administrator. Any person who believes that consent has been unreasonably withheld may appeal the decision to the superintendent, whose decision shall be final.
