

**VOLUNTARY PRAYER**

The Oklahoma State Board of Education has directed that every school district permits those students and instructors wishing to do so to participate in voluntary prayer. This policy is adopted to comply with that directive.

It is the technology center's policy that students and teachers may engage in voluntary prayer, including at graduation ceremonies. However, technology center employees shall not teach, or instill by way of repetition, any sectarian or religious doctrine.

Any student or instructor who has not been permitted to participate in voluntary prayer should notify the relevant campus director of the violation of this policy. The technology center will investigate all reports that a student or instructor has not been permitted to participate in voluntary prayer pursuant to this policy.
