

TRANSPORTATION MANAGEMENT

The Board of Education recognizes that transportation is a necessary element of educational opportunity and, therefore, the board shall grant opportunities for transportation. Transportation is a privilege extended to technology center students only when necessary for the accomplishment of one of the following purposes:

1. To provide transportation for any in-district secondary student who is participating in a program of the technology center.
2. To allow, when practicable, the use of school buses for the transportation of students to activities and on in-state field trips that have been approved by the campus director.
3. To provide adequate education facilities and opportunities which otherwise would not be available.
4. The board of education may provide transportation to students living outside the boundaries and routes established for the district by the State Board of Education
